

FEBRUARY 4 – FEBRUARY 7, 2019 OSHA Standards for the Construction Industry – OSHA 510

This course covers Federal OSHA policies, procedures, and standards, as well as construction safety and health principles and is the prerequisite to the OSHA 500 Outreach Trainer for the Construction Industry. Topics include scope and application of the OSHA construction standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. Learn to apply the appropriate Federal OSHA standard that applies to hazards in the construction industry.

Topics Include:

- Effects of workplace injuries and illnesses
- Mission and importance of OSHA in the workplace
- Organization, origin, codification of OSHA Standards
- Processes and Rules for OSHA inspections, citations, penalties and policies
- OSHA recordkeeping requirements for injuries and illnesses and OSHA forms 300, 300A, and 301
- Programs and requirements in OSHA 29 CFR 1926 that protect construction workers from injuries and illnesses
